

Board Member Bio  
Jason Wood

My name is Jason Wood. I am running for the board at Birchwood Recreation and Shooting Park because I have a lot of experience in multiple fields, giving me the experience that will help make the range a better place for shooters and help the range grow. A lot of you know me because I own Targets USA, your local steel target company. I also own a business that has been building larger industrial snow plows, that I

designed for heavy equipment, for the past 12 years. Besides my working with steel, which will greatly help with some range improvements that are being discussed, I also have 20+ years of construction experience running my own business and excavation divisions for other companies. So, I also know a bit about dirt work, which is also part of the improvements that are needed and wanted at the range.

I am running for one of the open positions for a couple reasons. One is that multiple board members, staff, and club members have asked me to because of my experience and my current involvement in the shooting industry in general. The other is that I think I have a lot of ideas, skills, experience that will benefit the range and future improvements that are wanted and needed at the range.
